

# EasyShoe *is here*

## **EasyShoe** *SPORT*

A wide-webbed shoe that offers maximum support across the sole. The internal metal spine allows the shoe to be adjusted to many hoof shapes and creates additional structural integrity.

## **EasyShoe** *COMPETE*

A thin-webbed shoe for use on the track or on turf. The internal metal spine allows for maximum adjustment to a wide variety of hoof shapes and sizes.

## **EasyShoe** *PERFORMANCE*

A wide-webbed shoe with integrated frog support. The unique design maintains support on and around the frog without hampering heel expansion and contraction. The frog support opens with the growth in the heel area during the trimming cycle.

## **EasyShoe** *PERFORMANCE N/G*

A wide-webbed shoe with integrated frog support that can be nailed or glued. Two integrated nailing plates at the branches allow the shoe to accept up to 8 nails. 3 clips keep the shoe in place without extending break-over. Translucent material allows the white line to remain visible during application.
